GFC ROCKET 5 by Projahn

ROCKET 5 - *the latest design in 5 cutter technology.*

Powerful:

- Specially developed cutting symmetry with five cutters equally high, in 90° angle arranged cutting edges
- Demolition effect for highly effective destruction of the material

Durable:

- Robust one-piece carbide plate (up to Ø 28 mm; from Ø 30 mm three-part) with centering point
- Accurate drilling without slipping off the material
- Smooth running and optimal guidance in the drill hole

Precise:

- Wear marks show, whether the tool is still suitable to drill dowel compatible holes
- Short transition from head to flute ensures fast removal of the drilling dust

Made in Germany

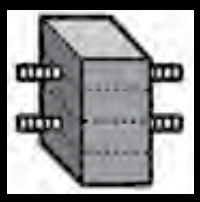
ROCKET 5

Powerful

Precise

5 CUTTER

Range of Applications:



Reinforced

Concrete

Masonry

Natural Stone

Specifications may be subject to change. We endeavour to ensure data is correct at time of publication.

ROCKET 5 SDS-Plus Shank
5 Cutter

The aggressively shaped drill bit with five cutters is setting new standards for drilling into reinforced concrete.

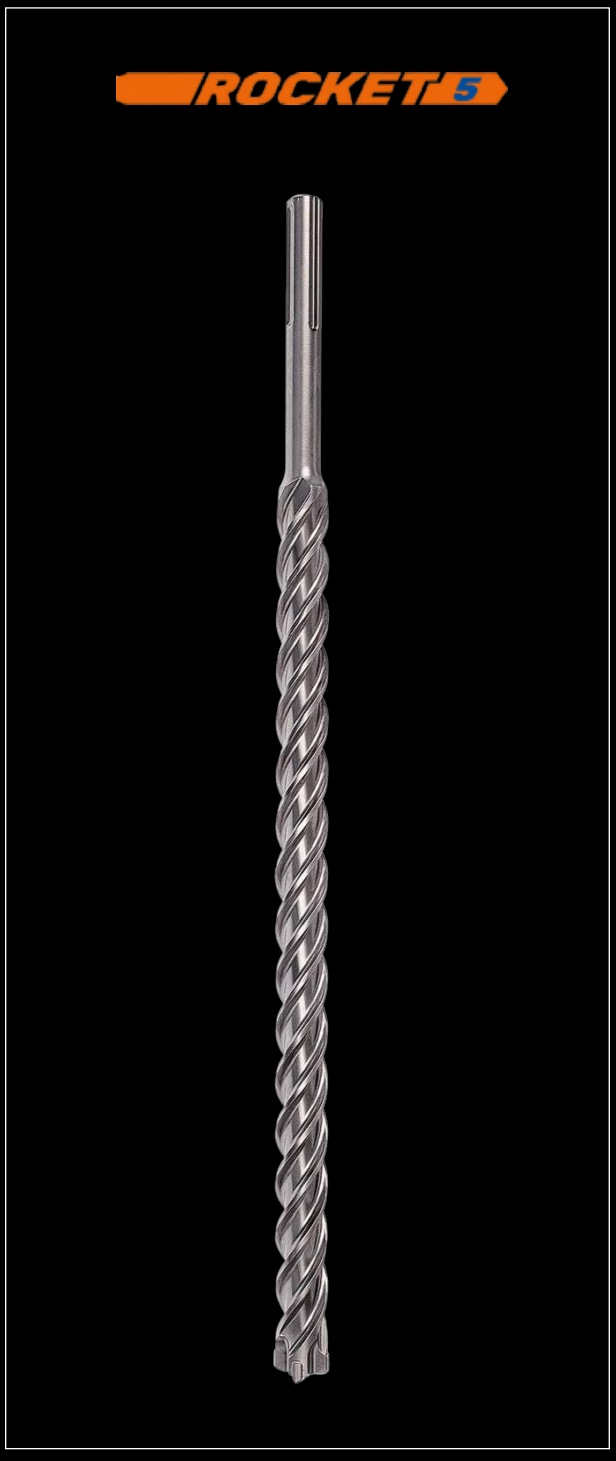
Advantages:

- 5 Cutters create precise holes in concrete and reinforcement with impact and torsion
- Centering point
- Reinforcement protection and wear marks
- Made of high-quality tempering steel especially selected for the toughest applications
- 4-flute geometry
- Carbide plate with radially shaped protection against reinforcement prevents jamming
- The heightened tip ensures long tool life even in extreme applications
- Low vibration for protection of person and machine

Made in Germany

Specifications may be subject to change. We endeavour to ensure data is correct at time of publication.

ROCKET 5 SDS-Max Shank
5 Cutter



Applications:

- Suited for drop-in anchors
- Perfect for the assembly of cable routes and water pipes

Advantages:

- Hammer drill bit with depth stop
- For drilling holes of continuously constant depth
- Enormous time savings compared to standard drills
- Made of high-quality tempering steel designed for the toughest applications
- The PGM-Certification guarantees accurate dowel holes and precise concentricity

Note: *For drills longer than 450 mm, it is recommended to pre-drill with a shorter drill of the same diameter.*

ROCKET 5 Dustless

SDS Plus Shank
5 Cutter

SDS Max Shank
5 Cutter

The aggressively shaped dustless drill bit with five cutters is setting new standards for drilling into reinforced concrete.

Advantages:

- Up to 20% faster work through direct crushing of the concrete without dust residues in the drill hole
- Two suction holes ensure fast drilling dust removal
- Perfectly suited for work in existing buildings such as hospitals, kindergartens, schools, kitchens, etc.
- Centering tip for easy, precise drilling
- Wear marks show whether the tool is still suitable for drilling holes suitable for dowels
- For use in combination with class M3 construction vacuum cleaners
- Suitable for reinforced concrete, masonry and natural stone

Made in Germany

Specifications may be subject to change. We endeavour to ensure data is correct at time of publication.
